RIGHT AND OUTHAGE ON THE RAILHOAD.—Two Men Killed and Several Wounded—The Blairsville (Pa.) Applaching contains an account of a series of riots which have recently taken place among the laborers on the rairoad near that place. The riots commenced by an attempt on the part of the Far Downs (north of Ireland men) to drive the Leinster men from the road. The following are some of the particulars:—

On Friday morning upwards of a hundred of the "Far Downs," from above, nearly all armed with guns, came along the line, gathering up those friendly to them, and making the others illy from the road; while those of the same faction from the sections towards Greenburgh moved forward to join them. They united at Section 29 (Madigan's,) near Craig's Mill, about three miles from town, where the opposing faction also gathered in great numbers. We have heard the whole number on both sides variously estimated at from 600 to 1,000. The Leinster men considerably outnumber of their opponents. All carried weapons of some kind—some having pick-handles, and others pieces of iron, bayonets attached to poles, Xc., but the majority were armed withguns and pistols. A light took place in which two of the "Far Downs," named Callahan and Smith, were killed. On the other side we hear of but one being wounded; he received two slurs in the side. The "Far Downs," named Callahan and Smith, were killed. On the other side we hear of but one being wounded; he received two slurs in the side. The "Far Downs," named Callahan and Smith, were killed. On the other side we hear of but one being wounded; he received two slurs in the side. The "Far Downs," were driven from the ground. It has been reported that four were killed, but there is no certainty in regard to more than the two mentioned.

Since the riot on Friday, the work on the Railroad has been suspended.

Since the riot on Friday, the work on the Railroad has been suspended

The Jackson (West Tennessee) Whig says that the bills on the Bank of East Tennessee, Knoxville, are very uncurrent in that section. They are not received in payment of debts.

We learn from the Le Roy Gazette of Tuesday

The grading of the last division-Lebanon to and the whole line is to be completed by the 1st of July next. This road, says the Indiana State Journal, being the direct and only route to Chicago for all the lines converging at Indianapolis from the East and South, must rank with the leading thoroughfares of the West.

At the annual meeting of the stockholders of the Wilmington and Raleigh Railroad, it was voted to apply the earnings of the Company, \$45,000, to the debt of the Commany instead of to the payment of a dividend

A meeting of the Tehunntepec Railroad Com pany was held at New-Orleans on the 13th November, when the following information was communicated, showing that New-Orleans has in earnest taken hold of this great project:

nest taken hold of this great project:

Several letters from Maj. Barnard were read.—
In the first he says that he was then engaging his party for the surveying exploration, and asked information in regard to the face of the country across which the route of survey will pass, and whether it is practicable for wheel carriages. He suggested, as a matter of importance, that all the facinities for the survey skould be provided on the Isthmus, that there might be no impediment to its early completion. In his second letter he says that it was his purpose to leave New York on the 12th inst. for this city, on the steamer Georgia. (Mr. Benjamin remarked that a telegraphic dispatch had just been received, giving information that Maj. Barnard did leave on the Georgia as he had expressed his purpose to do. He may there for be expected to arrive here about the 20th in a third letter, written at Baltimore, he refers to the probable amount of the expenses of the patch had just been received, giving information that Maj. Barnard did leave on the Georgia as he had expressed his purpose to do. He may there fore be expected to arrive here about the 20th. In a third letter, written at Baltimore, he refers to the probable amount of the expenses of the survey, and says, from the estimates he has been able to make, it cannot be much, if any less than \$35,000. He advises the purchase or charter, by the Company of a steam propeller, of a draft so hight that it can transport all the survey and some convenient paint up the river Contraconicus, and mentions the "Gen. Smith," that is or was recently in Matagor-

NEW-YORK TRIBUNE.
